Portfolio

Professional Summary

Detail-oriented PHP and WordPress Developer with hands-on experience in custom theme development, AJAX-based features, UI/UX design, and dynamic module development. Passionate about building scalable, user-friendly web solutions through clean architecture and performance optimization.

Professional Experience

Developer/Design (UI/UX/Wordpress)

Sep 2024 – Present

Sharajman Technologies

Full-Time

- Developed and maintained custom WordPress themes and scalable dynamic modules using PHP and MySQL for high-performance client projects.
- Implemented AJAX-based pagination, advanced filtering, and load-more features to improve responsiveness and user experience.
- Integrated GSAP animations and modern UI design principles to enhance visual appeal and engagement.
- Recognized as a **Rising Star** for consistently delivering quality solutions and managing complex modules independently.
- Collaborated with design and backend teams to deliver optimized WordPress solutions.

PHP Developer Intern

Feb 2024 – Jun 2024

Syscom Softech (P) Ltd.

Internship

- Built dynamic, database-driven websites using PHP, MySQL, HTML, CSS, and jQuery with optimized architecture.
- Developed CRUD applications with strong client-side and server-side validations for better data integrity and UX.
- Participated in code reviews and implemented best practices to improve code quality.

Education

Master of Computer Applications (MCA)

2022 – 2024

Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Computer Applications (BCA)

2019 – 2022

Chaudhary Charan Singh University
